

PRANAY DIGHE

JAVA FULL STACK DEVELOPER

Pune, India | pranaydighe70@gmail.com | linkedin.com/in/dighepranay | github.com/Pranay1234-max | pranay1234-max.github.io/Pranaydighe | +91 7020296465

SUMMARY

Java Full Stack Developer specializing in building scalable web applications using Spring Boot, React, and PostgreSQL. Proven track record in developing end-to-end solutions, including AI-driven healthcare platforms and D2C marketplaces. Focused on writing clean, efficient code and designing robust RESTful APIs to deliver high-impact, user-friendly digital products.

TECHNICAL SKILLS

- **Languages & Frameworks:** Java (Advanced), Spring Boot, React, Spring MVC, Hibernate, HTML5, CSS3.
- **Databases:** PostgreSQL, MySQL.
- **Development Tools:** Git/GitHub, Postman, VS Code, IntelliJ IDEA, Excel, Power BI.
- **Data Structures and Algorithms (DSA).**

WORK EXPERIENCE

Full Stack Developer (Intern/Trainee) | Project: Eggcellent eggcellent-project.vercel.app

- Architected a Direct-to-Consumer (D2C) marketplace using Spring Boot and React to facilitate direct transactions, potentially reducing consumer costs by 20% by eliminating middlemen.
- Engineered a robust relational database in PostgreSQL to manage real-time egg inventory and secure transaction logs with high data integrity.
- Integrated secure REST APIs to connect the React frontend with the Java backend, ensuring a seamless user journey from product discovery to secure checkout.

PROJECTS & PUBLICATIONS

ArogyaGPT | AI Healthcare Platform github.com/Pranay1234-max/ArogyaGPT

- Presented Research Paper: Authored and presented “ArogyaGPT: An AI-Based Healthcare Chatbot for Safe Medical Guidance” at the 2026 IEEE ICSFT, Bangalore.
- Developed a web-based healthcare assistant using React and Spring Boot to provide instant AI-driven symptom analysis, improving user triage efficiency by 30%.
- Implemented an intelligent triage system that categorizes symptom severity, automatically triggering urgent alerts and hospital referrals for high-risk cases.
- Integrated Geolocation APIs to provide real-time mapping of nearby medical facilities, maintaining secure PostgreSQL storage for user health history.

IEEE Publication

- **Paper Title:** ArogyaGPT – AI Healthcare Chatbot Framework
- **Conference:** 2026 International Conference on Smart Futuristic Technology (ICSFT)
- **DOI:** [10.1109/ICSFT66733.2026.11507643](https://doi.org/10.1109/ICSFT66733.2026.11507643)

Smart Parking System | Web-Based Reservation

- Built a web-based reservation system using React and Spring Boot featuring a “movie ticket” style interface for real-time parking slot booking.
- Constructed a PostgreSQL-backed inventory system with REST API validation to manage slot availability, prevent overbooking, and automate digital ticket generation.

EDUCATION

- **B.E. Computer Engineering (2022–2026)** | Savitribai Phule Pune University
- **Java Full Stack Development (2025)** | C.P.C Academy, Pune

ADDITIONAL INFORMATION

- **Honors:** Research Paper Presenter at IEEE ICSFT 2026 (Bangalore Section).
- **Certifications:** Java Training (IIT Bombay), ChatGPT Prompt Engineering (Udemy).
- **Languages:** English, Hindi, Marathi.
